//NOTIFICATION//

Naya Raipur, Dated, 12.08.2016

And Whereas, such Generating Company, Captive Generating Plant and Producer of Private/ Public Sector of the State, which are not supplying power at Energy (Variable) charges to the state, it is necessary to levy 15% of Average Cost of Supply indicated in the applicable tariff order in place of electricity duty which is 15% of 'the tariff', for electricity for auxiliary consumption and their own consumption;

And Whereas, such Generating Company, Captive Generating Plant and Producer of Private/ Public Sector of the State, which are supplying power at Energy (Variable) charges to the State, it is necessary to levy 10% of Average Cost of Supply in the tariff order from 1st April 2016 or date of commercial production, whichever is later, till 12 years and thereafter at the rate of Average Cost of Supply for time being in force in place of electricity duty which is 15% of 'the tariff', provided that in case on 31st March, 2016 payment of electricity duty along with interest is not due on these producers, for electricity for auxiliary consumption and their own consumption;
